SECRETARY'S ORDERS

The Secretary of the Department of Natural Resources and Environmental Control (DNREC) signed a Secretary's Order No. 2013-A-0054 amending 7 DE Admin Code 1147 – CO2 Budget Trading Program. This amended regulation incorporates amendments to the RGGI Model Rule dated **February 7**. The effective date of the amendment is **December 11**. For additional information, please contact Babatunde Asere, in New Castle, at (302) 323-4542 or at babatunde.asere@state.de.us; or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=2150&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

The Secretary of the Department of Natural Resources and Environmental Control has signed Secretary's Order No. 2013-A-0055, amending 7 DE Admin. Code 1140 – LOW EMISSION VEHICLE PROGRAM. The purpose of the amendment was to revise 7 DE Admin. Code 1140 to 1) remove the requirements that provide for prospective incorporation of revisions made by California, and 2) adopt by reference the applicable sections within Title 13 of the California Code of Regulations that comprise California's Low Emission Vehicle (LEV) III standard and the Greenhouse Gas (GHG) standard for model years 2015 to 2025. The effective date of this amendment is **December 11**. This information can also be obtained from the Department's regulatory website <http://www.dnrec.delaware.gov/air/Pages/1140LEV.aspx> For additional information, please contact Deanna Cuccinello, in Dover, at (302) 739-9402. SITE INVESTIGATION AND RESTORATION SECTION – The Division’s Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under “Announcements.” For site-specific information, please see DNREC’s Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>
